

MasterBlend®

Pro 45 Hybrid

A newer, more innovative system for low-moisture, low-residue carpet care

CARPET

- Compound dry-cleaning
- Encapsulation cleaning
- pile lifting
- Dry soil removing

HARD FLOOR

- Floor washing
- Scrubbing / drying
- Tile grout cleaning

SPECIAL FEATURES

- Compact design
- Stainless steel body
- Low noise level

MasterBlend®

Pro 45 Hybrid

A newer, more innovative system for low-moisture, low-residue carpet care

- **Ease of Use:** A convenient foot lever releases the handle and starts the brushes. Returning the handle to the upright position turns off the brushes and locks the handle. Brushes can be switched out in minutes without tools.
- **Mobility:** The large wheels on the trolley allow convenient travel in and out of buildings and homes and up and down stairs. Once removed from the trolley, two smaller wheels on the rear dust cover, provide movement between rooms.
- **Renovator Technology:** The machines have been upgraded with the unique RENOVATOR technology for pre-vacuuming dry soil and post vacuuming the soil-saturated compound.
- **Brushes:** Blue brushes for residential carpets are included with the machine. Other available brushes are stiff black for hard surface cleaning (tile & grout), brown for commercial carpets, and extra soft white for wool or delicate carpets.

This machine requires very little maintenance. Just wipe down the machine periodically and clean and rotate the brushes occasionally. Brushes are changed without tools. Complete kit includes blue residential brushes, transportation cart, detachable Renovators, dust covers, and dust brush for cleaning the machine after removing brushes.

SPECIFICATIONS

Weight	51.3 lbs
Height with/without handle	46.1" / 9.1"
Width	11/2
Length	20"
Motor	700W
Brush Rotation	395 rpm
Sound level at 0.5 m	57.8 dB
Dirty water capacity	1 gallon
Coverage carpet / hard floor	2000 / 3500*
Cable length	3 1/2' pig tail, plus 50' extension cord

MAINTENANCE CLEANING SOLUTIONS

Mist 'N' Brush™ LM – LOW MOISTURE–LOW RESIDUE CARPET CLEANER

Mist 'N' Brush™ LM is designed to be used with the Brush 'N' Clean Machine. This is a low moisture, low residue system for maintaining carpet. Mist 'N' Brush™ LM encapsulates soil so it can be removed by vacuuming. The dry brittle solids surround the soil suspending it until it can be extracted during the next scheduled vacuuming. This system of low moisture and low residue carpet maintenance is recommended by fiber producers and carpet mills worldwide. Each diluted gallon of Mist 'N' Brush™ LM cleaner will clean up to 1,000 square feet of carpet.

Ready to use pH is 9.0

Use:

Mix one part Mist 'N' Brush™ LM with 10 parts water (12 oz. per gallon). Apply to carpet with a pump or electric sprayer, then agitate using the Brush 'N' Clean Carpet Care Machine. The encapsulated soil will be extracted during the next scheduled vacuuming.

■ *Formulated to meet or exceed all established standards of wool fiber producers and fifth generation stain resistant carpet manufacturers.*

SpongeMaster – ABSORBENT COMPOUND FOR THE DRY CLEANING SYSTEM

SpongeMaster is an absorbent compound for the dry cleaning system. Absorbs soil, grease, oil, and most common protein stains. Improves soil removal of encapsulation systems. Biodegradable and non-toxic. Fresh pleasant scent.

Ready To Use pH Is 6.0.

Use:

Sprinkle onto cleaning surface at the rate of approximately one pound per 100 square feet. Brush into cleaning surface in all directions. Vacuum SpongeMaster from surface or use the Renovators on the Brush and Clean TM4 machine.
